A cute wee pack. I got it for the female clothing and it looks cute. The characters get the chickpea plant which seems to really decent way of making money/xp (though not like, game breaking). They wear the outfit with three colours in the first screenshots, and the bunting flags V tents and tower flags work really well with plants and making a fun junction area. I surrounded mine by the windmill setup, hay bales, some flowers, well, and stone paths. I dont know if there's a house in this pack, i havent seen it yet sadly but I'm gonna have another look. Otherwise it looks cute! Worth the \u00a32 I spent.
