---

Pivvot Soundtrack. Need I say more? While it's good, its even better when I get to download it!. **DLC verdict: Get it on sale OR Get it in the bundle with the base game**

**Comment:**

**If you liked the game soundtrack you might want this too. But keep in mind it is just five songs - four for the game modes and one from the main menu. While the price is a bit high there is a base game + soundtrack bundle you can get. And if you already have the game I recommend to wait for a big sale before getting this.**
